Bop Goes the Speaker

Written by Ashli St. Armant

All the around the world you know
That music touches people
But they ain't never heard it this dope
Bop goes the speaker

Bop goes the speaker and the speaker goes bop
Bop, bop goes the speaker and the speaker goes bop
Bop goes the speaker and the speaker goes bop
Bop, bop goes the speaker and the speaker goes bop

Bop goes the speaker and the speaker goes bop
All around the world and all around the clock
You get it in your dome and the body just rocks
The people hear the bop and then the boppin don't stop

They're boppin' in Columbia, Bali, Cameroon

They're boppin' in there kitchen and they're boppin in their rooms
Go out to the street, you're gonna here this tune
Grab a satellite, I'm gonna send it to the moon
The people wanna know, "What makes a bop bop?"
I say, "You gonna know, oh when the beat drop"

All around the world, let's go! Callin' all you people
Turn it on and turn it up
Bop goes the speaker

Let me see you do your thang DJ drop the needle
Ready, steady, here we go Bop, bop bop, bop, bop, bop

Bop goes the speaker and the speaker goes bop Bop, bop goes the speaker and the speaker
goes bop Bop goes the speaker and the speaker goes bop Bop, bop goes the speaker and the
speaker goes bop

That bop is gonna getcha til you feel it in your bones
Wake up in the morning, won't leave you alone
Why you tryna fight it? Bettah bring it on home
And give it to somebody so you never bop alone
Cuz the bop's gonna bring us all together again

Everybody's gonna bop from beginning to end
To the top, do the rock, do the worm to the ground
Do they way you wanna do it when they do it in your town
The people wanna know, "What makes a bop bop?"
I say, "You gonna know, oh when the beat drop"

All around the world, let's go! Callin' all you people
Turn it on and turn it up
Bop goes the speaker

Let me see you do your thang DJ drop the needle
Ready, steady, here we go Bop, bop bop, bop, bop, bop

[Spoken:] Okay! Everybody out there We want you to try this next part, We believe in you

Bop goes the speaker and the speaker goes bop
Bop, bop goes the speaker and the speaker goes bopty
Bopty bop speaker and the speaker goes bop
Bop, bop bop, bop, bop, bop

Bop goes the speaker and the speaker goes bop
Bop, bop goes the speaker and the speaker goes bopty
Bopty bop speaker and the speaker goes bop
Bop, bop bop, bop, bop, bop

The people wanna know, "What makes a bop bop?"
I say, "You gonna know, oh when the beat drop"

All around the world, let's go! Callin' all you people
Turn it on and turn it up
Bop goes the speaker

Let me see you do your thang DJ drop the needle
Ready, steady, here we go Bop goes the speaker

Window Seat

Written by Ashli St. Armant

WINDOW SEAT

If you know Kyra and Kam, you know they spend a lot of time traveling—and they definitely know their way around an airport.

“Window Seat” captures all the little things they love about flying: backpacks packed, headphones on, snacks ready and watching the world disappear beneath the clouds.

But underneath all the travel fun is something we love about this song: no matter how many amazing places they get to see, there's still something special about heading home.

“Once I had a dream, I'm living in it.”

Take me for a ride in an aeroplane
Just touched down, let's go again
Cuz there is nothing like that flyin feelin
Now matter where we go, I'm ready

I got my backpack, my pillow too
Headphones, playlist on cue
Going straight to row 13A
Cuz they got them li'l snacks, and drinks and tea
Matter fact, might watch a movie
Hurry up, they're calling our names, yeah-ah

Take me to my window seat
Everybody's waiting on me
Lifting off in 1, 2, 3
I'm comfortable, yeah

Mountain high, now take it in
This is where the fun begins
Captain let the engines spin
I'm comfortable yeah, yeah

Martin had a dream, I'm living in it
Betcha can't believe the places I've been
But every time we ago, something inside me
Takes me back to where I'm from

So I grab my iPad for playin' games
Water bottle cuz you gotta hydrate
Shoes off, there's no other way
And from the window and through the clouds
Down below, I see my house
Next destination is home, yeah, yeah

Take me to my window seat
Everybody's waiting on me
Lifting off in 1, 2, 3
I'm comfortable, yeah
Mountain high, now take it in
This is where the fun begins
Captain let the engines spin
I'm comfortable yeah, yeah

Dreaming Loud

Written by Ashli St. Armant

Every night the sun goes down
Sky is full of twinkle lights
I jump right into my bed
You don't have to tell me twice I got my pil-low
I know just where I'll go
Time to say goodnight, time to say goodnight

Right away I close my eyes, right away I go to sleep
Right away I teleport to another frequency
Inside my mi-ind where I design
An orchestration of imagination

Dreamin'
Don't wake me cuz I'm dreamin' loud
I'm dreaming 'bout the places I'll go that I don't even know
The person I'll be that I can't even see
Dreamin'
Don't wake me cuz I'm dreamin' loud
Oh even if I float up high
Right up to Cloud Nine
Don't bring me down, no-oh
I'm dreamin' loud

Everyday I take some time
Take a little look around
Everyday I realize
Every sight and every sound on the radio, yeah every song I know
Started with a dream, it started with dream

No it's not a waste of time
Building castles in the sand
Picture all your wildest dreams
In the palm of your hand

It's not impossible
It's kind of magical
That any dream can turn into reality

Dreamin'
Don't wake me cuz I'm dreamin' loud
I'm dreaming 'bout the places I'll go that I don't even know
The person I'll be that I can't even see
Dreamin'
Don't wake me cuz I'm dreamin' loud
Oh even if I float up high
Right up to Cloud Nine
Don't bring me down, no-oh
I'm dreamin' loud

I'm dreamin' loud
I'm dreamin' loud, woah-oh
I'm dreamin' loud
Don't you bring me down , no-oh, I - I'm...

Dreamin'
Don't wake me cuz I'm dreamin' loud
I'm dreaming 'bout the places I'll go that I don't even know
The person I'll be that I can't even see
Dreamin'
Don't wake me cuz I'm dreamin' loud
Oh even if I float up high
Right up to Cloud Nine
Don't bring me down, no-oh
I'm dreamin' loud

Supah Dupah

KB Family in the house

We supah dupah yall

Well this is a story, straight out a comic book

I used to turn the pages, they would leave me kinda shook, Wow

Wish I could save the whole world from trouble

Throw on a cape and be there on the double

What if I could grow to a supah dupah SIZE??

And shoot laser beamies with my supah dupah eyes, Pyoom!

Looked in the mirror, it was really out the blue

I realized that I could be a superhuman too!

I am strong, brains galore
Need some help? Say no more
Wee-oo wee-oo wee-oo wee-oo
Like a flash a superhero at your door

Danger? Don't worry, just call my name
I'm already on my way
To save the day
Because I'm SUPAH DUPAH

People say
All heroes don't wear a cape
I'm wearing mine just in case, because I'm...
Because I'm SUPAH DUPAH

I keep my eyes peeled for potential of a hazard
Cuz any little hazard could turn into disaster, BOOM!
Yeah danger lurking just around the corner
But Supah Dupah gonna fix it for ya

Bullies out to get cha? I'mma walk you through the hall
Bout to lose your balance, Imma catch you 'fore you fall, ZOINK!
And everytime a tiny little kitten's in a tree
Ya best believe the hero that they gonna call is ME!

I am brave, ask around
Need some help? [Shouted:] What's that sound?
Wee-oo wee-oo wee-oo wee-oo
Look out, get down, superhero in your town

Danger? Don't worry, just call my name
I'm already on my way
To save the day
Because I'm SUPAH DUPAH
People say
All heroes don't wear a cape
I'm wearing mine just in case, because I'm...
Because I'm SUPAH DUPAH

Look out! Look out! Whiz! Bang! Pow! Zap! Ka-Boom!

Danger? Don't worry, just call my name I'm already on my way
To save the day
Because I'm SUPAH DUPAH

Danger? Don't worry, just call my name
I'm already on my way
To save the day
Because I'm SUPAH DUPAH
People say
All heroes don't wear a cape
I'm wearing mine just in case, because I'm...
Because I'm SUPAH DUPAH

I Can I Can

Written by Ashli St. Armant

It'd be so easy for a caterpillar
To crawl around all day
And wonder why
He had this feeling

If he had the chance
Maybe, one day, he could take off and fly

It'd be so easy just to stay the same
Never do hard things
And never try
But then I'd never know

What it feels like
To take off the training wheels and go for a ride

Feels like I can't do it
Too hard, I can't do it
I wanna say I can't but
I can, I can, I can , I can
Feels like I can't do it
Too hard, I can't do it
But in my heart I know I can I know I can

Life is a game, I came to play
Can't win alone
But with my friends
All around me, shouting "You can do it!"
Yeah, I can feel it
I'm gonna win!

Feels like I can't do it
Too hard, I can't do it
I wanna say I can't but
I can, I can, I can , I can
Feels like I can't do it
Too hard, I can't do it
But in my heart I know I can I can
Feels like I can't do it
Too hard, I can't do it
I wanna say I can't but
I can, I can, I can , I can

Feels like I can't do it
Too hard, I can't do it
But in my heart I know I can I know I can

I can
Forget about my thoughts and focus on my heart I can
Remember that the only way to finish is to start
Then first step, second step, third step, go!

It'd be so easy
For a little star
To think she's not enough
And fade away
But when you're shining, everything gets brighter You're the brightest star in our galaxy
Oh your golden light is leading the way

For all the other stars to shine, shine, shine
And together, we'll light up the sky

Action, quiet on the set!

New shot, new world
Wonder who I'm gonna be today, ["We need you in wardrobe!"] uh-huh
On set, on cue
Wouldn't have it any other way, ["Places, people!"] uh-huh

Director's yellin' action
We're gonna make it happen
Been dancing, singing, actin'
Since I was brand new

That's how my daddy raised me

The skills my mama gave me
Watch!

["Ready for your close up?"]
Three, two, one... rollin'!

Lights on, cameras up
Lights on, cameras up
Lights on, cameras up
Lights on, cameras up
Lights on, cameras up
Lights on, cameras up

Okay, please slate your name
And tell us a little bit about yourself

I'm Kyra, and I'm not even a teen
But I know I love to sing
And I live for the screen

I'm Kam, and I love being on set
Time for a sound check?
Hold on, gimme a sec

Making movie magic with the family
[So, which project is your fave?]
There's just too many to name!

All together, making dreams
Always gotta have a little fun, ["Now growl!"] Rawrr!

Truth About Unicorns

Written by Ashli St. Armant

The thing about unicorns
They're purple and pink
And rainbow and sparkly
The thing about unicorns
They're strong, but they're kind Magical, trustworthy

A unicorn is just like a horse, but only genetically so
'Cause the thing about unicorns
Is, they can fly up to the sky
And they they're all unique
Special and unique like me

No, no that's not right
The truth about unicorns

Is they aren't real, but Santa is, so maybe?
The truth about unicorns
Is they aren't all pink
Like mine would be blue and green
With a giant gold horn
That makes him ferocious and wild
But the truth about unicorns
Yeah, they can fly
Way, way up high
And they are unique, special and unique like me!

Their horns are made of rainbows
That make up other rainbows in the sky On sunny days

No! Their horns are made of gold with The power of invisibility
To hide and play

I'd keep mine in the backyard and she would be my best friend I'd keep mine in the house and
we'd eat snacks in the kitchen

When nobody was looking
We take our unicorns out for a ride

The truth about unicorns
Is they can be artists, or leaders, or engineers
The truth about unicorns
Is some have long hair, and others have floppy ears
Every single unicorn is perfectly different, it's true
The truth about unicorns is they are unique
Special and unique

Yeah, they are you unique
They're weird, and unique
Perfect and unique Like you
No, Like you
Like you!

Shake It Up

Written by Ashli St. Armant

Shake it, shake it, shake it up?
(Shake it, shake it, shake it up)
Shake it, shake it, shake it up?
(Shake it, shake it, shake it up)
Shake it, shake it, shake it up?
(Shake it, shake it, shake it up)
Shake it, shake it, shake it up?

If you're always wearing green, well, why not try some blue?
If you always walk alone then why not go with two
Think your day is BORING? Here's what you can do
Wake up in the MORNING - shake it up boo-boo!

Shake it, shake it, shake it up?
(Shake it, shake it, shake it up)
Shake it, shake it, shake it up?
(Shake it, shake it, shake it up)

Shake it, shake it, shake it up?
(Shake it, shake it, shake it up)
Shake it, shake it, shake it up?
(Shake-a Shake-a)

Woo!
Send your (mente/noggin) on a mission

Let's see how it goes
You tend to do the same thing (over and over again) It's time to ride a new train -"Okay!

Yeah! You could...
Shake up your life, make it a game
Shake your style, shake up your name
Shake up the way you do everythang
I guarantee that you won't be the same
Take it from me, you're gonna see
Every day has a new flavor
Boring old days? They're in the past!
I gotta go, see you laterrrrr

Popsicle

Written by Ashli St. Armant

All I need is a popsicle
Why don't you give me a popsicle
Straight from the freezer (popsicle)
I'm a believer in a popsicle

In the morning
In the evening
When it's warm and When it's freezing
I ain't lying
When I'm crying
All I need is a
Won't you give me a

Popsicle A popsicle

We don't see eye to eye (popsicle)
Why do we always fight (popsicle)
Might be another way (popsicle)
To say what we need to say

Let me get you a popsicle
A little sweet treat
I know you're hurting
Please believe me
I know you're mad now
A little cool down
Will make it better
If you let it

Popsicle A popsicle

These hard times we're having
Just need some understanding
And like I always say
Be sweet! It goes a long way!

Everybody
Round the world now
All together
Til the sun's down
We gotta listen
To what we're missin' Instead tearin' apart
We gotta melt these hearts Just a popsicle.....

Be sweet! It goes a long way!
